

A CHECK LIST OF
NEW ENGLAND ELECTION SERMONS

BY R. W. G. VAIL

FROM colonial times it was the custom of certain of the New England states to open each year's session of the legislature with an annual election sermon. Since there is much history as well as fiery patriotism and dry theology in these old sermons, they have been sought by librarians and collectors. Many of them are excessively rare as well as extremely interesting. Since there is no adequate list of them, this checklist has been attempted. Complete collations are not given since they may, for the most part, be found in such works as Evans, Sabin and Gilman.

The largest collection for all of the states is at the American Antiquarian Society though in the cases of Connecticut and New Hampshire, somewhat more complete collections are to be found in the historical libraries of those states. The following list attempts to record copies in a few of the larger collections, together with the earlier titles located by Evans.
